

XPRESSION

250RGBLA

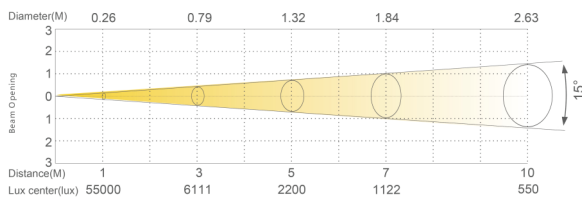

As an innovative 5 color fresnel, XPRESSION 250 RGBLA uses a high effective optics system with an excellent color-mixing performance. With its HSIC intelligent system, you can mix any colour easily, select colour temperatures from 2700K to 8000K or 16 pre-programmed colours. Ideal for professional lighting in TV station, studio, exhibition, conference hall, theatre, etc.

light source	250W LED RGBLA
CCT	2700K-8000K
CRI / CQS	Ra≥90 / >90
beam angle	15°-45°
max. power / voltage	240W / 100-204V AC
drive current	1.5A
dimmer	0-100% 16-bit
control	DMX512, RDM
display	on board control
cooling	forced convection
connectors	power in/out, DMX in/out
size / weight	510x285x261mm / 7,6kg
housing	extruded aluminium
color	black
IP rate	IP20
certification	CE, MET

3200K

5600K
